**Subject:** DMV Privatization - House Bill 5041

Conceptually an excellent proposition.

AAA Northeast has successfully performed a delegated DMV function for years, that of CT driver license processing, perhaps others not known to me.  
The efficiency and convenience are inestimable.

AAA management competence is established.  
Cooperative State/AAA planning and execution must be top grade.  
Funding and staffing must be sensible for the scope of the project, which will surely include upgrading existing AAA locations and creation of additional ones.
